GUARDS PROTECT ARGENTINE POLITICS FAIRCHILD IN JAIL ARE WARMING UP

By the Associated Press.

Buenos Aires, Aug. 27.—With the election that is to choose the president of Argentina for the next six years only eight months off, political activity is becoming marked throughout the country, and there is much speculation as to who will be the nominees of President Yrigoyen's party, the radical party and the opposition.

The law prevents the president himself from being re-elected but it is generally conceded that President Yrigoyen desires to see himself succeeded by one of his faithful supporters so that his policies may be continued.

Among those who are most often mentioned for carrying the standard of his party are Dr. L. J. Cantillo, the present mayor of Buenos Aires, and Dr. Honorio Pueyrredon, the Minister of Foreign Affairs.

Dr. Lisandro de la Torre, who was the principal candidate opposing President Yrigoyen in the election in 1916 and who has long been a political opponent of the president, having once fought a duel with him, is often mentioned as the probable chief of the opposition during the next campaign.

The opposition to the Radical party in Argentina is at present split up into many sections, including the Socialists, Progressives, Democrats, Conservatives and the National Civic Union, and attempts are now being made to bring about an understanding between them in order to defeat the present administration.

In the city of Buenos Aires, which holds approximately 25 per cent of the voting population of the country, the Progressive Democrats and the Socialists are strong, while in the various provinces the opposition is divided between different groups. The Radical party has a national organization.

Six years ago the Radical party came into power for the first time following changes in the voting law providing compulsory and secret balloting.

Some liquor was found in Lippard's garage. Lawrence E. Eckard also has been bound over to federal court in the sum of \$200.

WANT COUNTY AID IN GETTING MONEY

Raleigh, Sept. 17.—The secretary of state is today calling upon all judges and solicitors of the state to aid in getting out of the state the automobiles which resulted in the 1920 loss of \$1,000,000 in revenue. The secretary is asking that the judges and solicitors be called to the attention of the grand jury and the grand jury be called to the attention of the grand jury and the grand jury be called to the attention of the grand jury.

The letter to the court officials asks that attention be called to the violation of the automobile license law of 1920 in which the law is being enforced and pointed out. Secretary of state asks the solicitors to notify the judges of the peace in their districts who are called upon to help in enforcing the law.

Among the ways by which it is claimed the law is violated are changing the license numbers, running the cars on borrowed licenses, transferring numbers from one car to another without authority, etc.

This year the total registration of automobiles and trucks is about 135,000. In 1920 the number reached 147,000.

SMOOT PROPOSAL GETS LITTLE SUPPORT

By the Associated Press.
Washington, Sept. 17.—Having practically completed revision of the income tax bill the senate finance committee was ready today to receive Senator Smoot's proposal for a manufacturer's sales tax and Senator Calder's plan to tax 2.75 beer at the rate of 85 per barrel.

The sales tax is embodied in the bill which Senator Smoot had given notice he would offer to the committee today. Under the plan, the tax would be divided into five heads: incomes of individuals and corporations; estate taxes, tobacco taxes and a three per cent levy on manufacturer's articles.

Senator Smoot estimates that these sales would yield \$2,000,000,000 annually and that these sums with the amounts collected through the tariff and would with the collections.

The general opinion at the capital seemed to be that the committee would reject Mr. Smoot's bill, in that event the senate planned to bring before the senate when that body takes up the house bill.

SAVED HIS TROOPS BUT LOST HIS LIFE

Headquarters Turkish Nationalist Army, Aug. 25.—Colonel Nazim Bey, with his fourth division, lost his life and saved the main body of General Ismet Pasha's forces from being taken in the rear and possibly routed during the frontal attack made with superior forces and equipment by the Greeks in the Kutahia zone.

In recognition of his services, General Ismet Pasha published a note to the army stating that in his entire military career, including also his knowledge of military history, he knew of no finer example of heroism and intelligent valor. He also paid high tribute to the remnants of Colonel Nazim's division remaining after standing for two days against three Greek divisions, any one of which was stated to be superior in numbers to that of Nazim.

The Greeks had planned, in addition to the frontal attack on Kutahia, a surprise attack on the Turkish rear with three flying divisions, and the surprise appears to have been complete.

So soon as their presence in force was discovered Nazim Bey was detached from the main army to stop them, or halt their progress until the retreat from Kutahia could be effected. He did so, and during these 48 hours of constant fighting and re-fighting, he was wounded by a rifle bullet but kept on his horse until struck by a second bullet, toward the end of the fight. He died but with the knowledge that he had saved the main body of the army. "Kismet" (its fate) were his last words.

Colonel Nazim Bey was a short thin man of 45 years, quiet and gentlemanly in his deportment, speaking but rarely, with a large head and thoughtful, melancholy grey eyes. A soldier by profession, he served during the general war on several of the fronts, but mostly on the Russian front. He would have borne the title of general as division commander under the old imperial army but the Nationalists have suppressed that title except for officers commanding more than an army corps.

ARBUCKLE CASE TO BE TRIED SEPT. 26

San Francisco, Sept. 17.—The arraignment of Roscoe C. (Fatty) Arbuckle in the court of Judge Ladd on a charge of the murder of Miss Virginia Rappe came up today, but was continued until Monday, September 26.

This arraignment was a mere formality, it was said. District Attorney moving for a continuance of the case until action had been taken on the charge of first degree murder.

The district attorney had announced the murder charge will be pushed and it will be left to a jury to decide whether Arbuckle will be punished for first degree murder, manslaughter or set free by acquittal.

Acquittal of the murder charge would mean automatic acquittal on the manslaughter charge, for the law holds a person may not be placed twice in jeopardy for the same offense.

MAY BUY BATCH STATE ROAD BONDS

(BY MAX ABERNETHY)
Raleigh, Sept. 17.—Application for an option on five million dollars worth of North Carolina five per cent road bonds at par has just been made to State Treasurer B. R. Lacy. The request for the option came from Bray Brothers, bond buyers of Greensboro, and is interesting Treasurer Lacy and members of Morrison administration. Whether the state officials see in the virtual bid for North Carolina five per cent bonds at par the beginning of a rapid return to President Harding's normalcy has not been answered, but the Greensboro offer puts much hope in the breast of state officials. Other bids are looked for soon.

And while it is not the policy of the state Treasurer to give options on its salable bond issues, Treasurer Lacy has written that he will consider the application. This letter was written yesterday but no response has been received today.

EXPECT GOVERNOR TO NAME WARREN

Raleigh, Sept. 17.—Appointment of Thomas D. Warren of New Bern to the supreme court bench to succeed the late Associate Justice W. R. Allen, is daily expected, although no official announcement has been made regarding the appointment at the governor's office.

Governor Morrison considers Mr. Warren eminently fitted for the place and if endorsements are worth the paper they are written on the New Bern man would win over all others in a walk—that is if Democratic endorsements are to be considered. And the endorsements from Democratic lawyers and party leaders predominate since the Republicans, knowing that the place would naturally go to a Democrat, have not been very active for any candidate.

That portion of the North Carolina press which has consistently, according to Governor Morrison, opposed his administration is now urging that Mr. Warren be not named.

That's another excellent reason why the political prognosticators may safely predict the governor will name Mr. Warren. All things being equal between two men it is not difficult to pick the winner when the vast majority of delegations, and individuals have endorsed Mr. Warren. Today it looks like Associate Justice Thomas D. Warren.
